Software developer

SUMMARY

Software developer with 5+ years building customer-facing web products and internal tools with TypeScript and React/Next.js (plus Vue). Strong problem-solver with solid web fundamentals (HTTP, caching/CDNs, Core Web Vitals) and experience integrating REST/GraphQL APIs. Enjoy working closely with engineers to deliver high-quality software end-to-end, learn new technologies quickly, and contribute through code reviews and clear documentation.

WORK EXPERIENCE

- Web Developer** Utrecht, the Netherlands
OFoundation Jul 2025 – Present
 - Build and ship customer-facing Shopify storefront features using React + TypeScript (Liquid), translating Figma designs into responsive, accessible UI and partnering with teammates to deliver releases end-to-end.
 - Led performance and UX problem-solving initiatives, raising Lighthouse scores to 90–100 through profiling, image optimization, code splitting, lazy loading, critical CSS, and semantic HTML.
 - Automated Shopify workflows with n8n and introduced AI-assisted content/translation pipelines to reduce manual work, improve data quality, and speed up iteration across product updates.**Tech:** React, Shopify (Liquid), TypeScript, GraphQL, JavaScript, Figma, n8n
- Software Engineer** Helsinki, Finland
Karhuno AI Feb 2025 – May 2025
 - Collaborated with a small team to deliver a production SaaS application end-to-end using Next.js/TypeScript; implemented UI and backend data layer (PostgreSQL + Prisma) with schema-driven validation (Zod) to ensure reliability.
 - Drove feature delivery from scoping to release by writing clear setup/usage notes and maintaining a clean, reusable component structure; improved perceived performance and UX using Framer Motion/GSAP/Three.js.**Tech:** Next.js, TypeScript, Tailwind CSS, shadcn/ui, Bun, PostgreSQL, Prisma, Zod, Framer Motion, GSAP, Three.js
- Frontend Engineer** Tehran, Iran
PAP Group Ltd. Sep 2022 – Jul 2023
 - Collaborated in an Agile team to deliver customer-facing web features end-to-end; facilitated daily standups to align on progress, unblock issues, and keep releases on track.
 - Mentored 5+ junior developers through 1:1 coaching and code reviews, promoting maintainable patterns and consistent engineering practices in Vue.js/TypeScript.
 - Modernized the frontend stack by migrating projects to Vue 3 (Composition API) and Vite, improving build speed and asset performance for faster iteration.
 - Built reusable UI components and layout patterns to accelerate feature delivery and ensure a consistent UX; contributed to performance improvements across travel sites (AryakTravel, ShabavizTour).
 - Authored and maintained **PAPDocs** using VitePress and Markdown, enabling clearer user/developer documentation and faster knowledge sharing across teams.**Tech:** Vue 3, TypeScript, Vite, Vuetify, VitePress, Tailwind CSS, Vuex, Pinia

• Front-End Engineer

Zharfa Academy

Tehran, Iran

May 2021 – Aug 2021

- Implemented secure authentication (token-based login, role-based access, CSRF/session safeguards) and improved project structure for long-term maintainability.
- Led deployment/testing for performance and scalability; configured Webpack with code splitting and tree-shaking to reduce bundle size. Applied frontend design patterns to create scalable, maintainable codebases.

Tech: JavaScript, Vue.js, HTML5, CSS3, PHP, Laravel, Webpack

• Front-End Developer

Almas-Teb-Rayan

Tehran, Iran

Apr 2020 – Jul 2021

- Collaborated with engineers and stakeholders to build and release the Nikan Hospital & Clinic platform; applied OOP principles to keep UI modules testable, maintainable, and reliable in a high-impact domain.
- Improved internal UI tools and engineering workflow (+30% MVP flexibility, -15% delivery time) by standardizing Git/npm practices, bundling/code-splitting, and asset optimization, supporting faster end-to-end delivery. **Tech:** HTML5, CSS3, JavaScript, SCSS, Swiper, Chart.js

EDUCATION

• University of Padua

MSc, ICT for Internet and Multimedia — Cybersystems

Padua, Italy

Oct 2023 – March 2025

• Azad University, Central Tehran Branch (IAUCTB)

BSc, Computer Engineering

Tehran, Iran

Sep 2016 – Oct 2021

VOLUNTEER WORK

Teacher & Coach (Remote)

Zharfa Academy

Tehran, Iran

Jan 2022 – Present

- Teach React web development and Python basic up to advance through 1:1 coaching, goal setting, and code reviews, while guiding students on UX fundamentals, debugging, and writing maintainable code via iterative feedback.

CORE SKILLS

- **Frontend:** HTML5, CSS3/SCSS, JavaScript (ES6+), TypeScript, React, Vue 3, Vite, Redux, Tailwind CSS, Bootstrap, Styled Components, shadcn/ui
- **Animation/UI:** Framer Motion, GSAP, Three.js
- **APIs & Data:** REST, GraphQL JSON, Prisma, PostgreSQL
- **Performance & Web Fundamentals:** Lighthouse/Core Web Vitals, HTTP/S, caching, CDNs, CORS, critical render path.
- **Tools:** Figma, Git (GitHub/GitLab/Bitbucket), VS Code, WebStorm, PhpStorm, CI-friendly workflows
- **Backend:** Node.js, Next.js, PHP, Laravel
- **Quality & Delivery:** code reviews, Agile/Scrum, documentation (RFC-style), Mentorship, Cross-functional team, Open to change, Motivated, Committed, Friendly, Problem-solving

PERSONAL PROJECTS

Prompter (Nextjs) | Nodebase (Nextjs) | Movie App (Nuxt 3) | Threads Clone (Nuxt 3) | marketplace(Nextjs)

LANGUAGE

Persian (Native) | English (Fluent) | German (Limited Working) | Italian (Basic)
