PERSONAL SUMMARY

With around four years of experience as a Front-End Developer, I have demonstrated proficiency in utilizing technologies including HTML5, CSS3 (SASS), React, and Vue framework. Additionally, I possess expertise in using Figma for UI/UX design and implementing MVP patterns and the atomic systems methodology. Furthermore, I am well-versed in Agile methodologies and project management practices.

EXPERIENCE

- **Fullstack Developer** — Helsinki, Finland

  Karhuno ai — *Feb 2025 - Present*

  - Design(UI/UX) new version of karhuno-ai saas platform with figma.
  - Develop the new version of website with Next js
  - used new libraries like tailwind version 4 and shadcn-ui(it's open-source UI component library for React that focuses on flexibility and customization) and bun as package manager.
  - for the animation I've used gsap library to make smooth animation
  - using postgresql for database and used drizzle ORM for making the models and etc.
    Technologies: NextJs, shadcn-ui, tailwind, typescript,gsap,zod, postgresql, drizzle ORM

- **FrontEnd Engineer** — Tehran, Iran

  PAP Group Ltd. — *Sep 2022 - Jul 2023*

  - Guided junior developers in adopting new technologies and frameworks within the realm of frontend development through Agile methodologies.
  - enforced new features in "Web Harmony" application, including upgrading to Vue 3, use composition API instead of OptionAPI, and Vite, to improve the compressing and network traffic for around 20% faster.
  - Designed and developed travel agency websites, like Shabaviz and AryakTravel, etc...
  - Designed and developed a documentary website called PAPDocs with vitepress libraries, and led the team in creating their documents using markdown.
  - Explored various Vue libraries including vue-types, create cleaner props with more options than typescript, and Vuetify as UI Components library.
    Technologies: Vue3, Javascript, Typescript, Vuetify, Vite, Vitepress, SCSS, Vuex, Pinia

- **Front-End Developer** — Tehran, Iran

  Zharfa Acadamy — *May 2021 - Aug 2021*

  - Developed zharfa from scratch using HTML, CSS, and JavaScript, and integrated the Vue js framework into the project.
    Technologies: HTML5,CSS3, Javascript,Vue js

- **Front-End Developer** — Tehran, Iran

  Almas-Teb-Rayan — *Apr 2020 - Jul 2021*

  - Worked as a Frontend Developer at Almas Teb Rayan Company on the Intelligence Nikan's Hospital and Clinic project. Designed and expanded the website for the project.
  - using git and the latest method of managing and compressing packages like Webpack and npm in the project.
  - Improved and Modified tools to boost user interaction and MVP deliver design versatility.
  - Developed a website using pure HTML, CSS, and JavaScript, ensuring responsiveness across multiple platforms, including mobile devices.

- Emphasized the collaboration and teamwork within the group.
  Technologies: HTML5, CSS3, Javascript, SCSS, Swiper, Chartjs

- **Front-End Developer** — Tehran, Iran
  Pody startup — *Sep 2019 - Apr 2020*
  - Served as CEO and Frontend Developer at Pody's Startup, a broadcasting and podcast startup.
  - enforeced a website using the React js (class-based method) and utilized Redux for managing and centralizing the application state.
  - Created an MVP design and framework for the Pody website.
    Technologies: React js, Redux
